

Delabole Youth Club

Thank you to the Parish Council for our funding last year, with those funds we undertook safeguarding and designated safeguarding lead training, have set up the DBS process ready for when we can finally open and still have the funds in place for that along with insurance and start-up costs. 2 of our volunteers also got their First Aid training. We are currently waiting on our venue to be made ready. There is still some work to do and then we will reassess volunteer numbers and arrange more fundraising events to start the momentum up once again, we have been in talks with Kernow Connect who are also happy to support once we are up and running.

At the last meeting we were agreed that the youth club needs to be available to the older youth in the village (age 12+) as a definite need has been identified and we are aware that members of the community are concerned about behaviour in the locality. Though we can't promise this will make a difference we would like to think showing the children they do have an alternative place to hang out might be beneficial to some.

Kind regards

Louise Harrington
